

## Pet Preparedness:

(Put each pet's name on a separate line)

- Check if each dog has completed an obedience class.
- Check if each dog and cat will come when called.
- On pet's birthday (or adoption anniversary date), schedule appointment with the veterinarian for a physical check-up and routine vaccinations.
- Check if each pet's weight is kept within the normal range.
- Check if all chronic medical conditions are closely monitored and treated.

### Preparedness:

- Prepare emergency notebook.
- Accumulate emergency supplies
- Learn about emergency care: take Red Cross First Aid class, and/or CAPS M03 Companion Animal Care and Health class.
- Practice tasks listed in chart below, and others that you have added:

### Emergency Drills:

| <u>Task:</u>                                  | <u>Dates Practiced:</u> |  |  |  | <u>Comments:</u> |
|---|-------------------------|--|--|--|------------------|
| Pet walking on leash/harness                  |                         |  |  |  |                  |
| Pet coming when called                        |                         |  |  |  |                  |
| Pet loading into carrier                      |                         |  |  |  |                  |
| Pet accepting muzzle                          |                         |  |  |  |                  |
| Handle and check pet from nose to tip of tail |                         |  |  |  |                  |
| Giving pet a pill                             |                         |  |  |  |                  |
| Giving pet liquid medication                  |                         |  |  |  |                  |
| Lifting pet onto table                        |                         |  |  |  |                  |
| Getting pet to load into car                  |                         |  |  |  |                  |
| Evacuation drill                              |                         |  |  |  |                  |
| Total time for evacuation:                    |                         |  |  |  |                  |
| Other tasks:                                  |                         |  |  |  |                  |
|   |                         |  |  |  |                  |
|   |                         |  |  |  |                  |
